- Workshop Facilitation

Personal Interest

I love sports such as kite surfing and rock climbing. I studied flute and I played the bass in a band. My main hobbies are exploring the beautiful Scottish countryside, reading books and playing boardgames with my friends. I am also keeping up to date with new technologies.

Professional Summary

UX/UI Designer with 8+ years of experience in user-centered design, leading research initiatives and cross-functional collaboration. Proven track record of improving user retention by 17% through data-driven design solutions. Skilled in Figma, user research, and accessibility best practices.

Employment History

Product Designer - Wood Mackenzie

May 2022 - Present | Edinburgh, UK

Through a research-driven design approach and close cross-functional collaboration, I delivered user-centred solutions that measurably improved product performance. Design improvements informed by usability testing, analytics, and iterative prototyping contributed to a **17% increase** in user retention, while also improving accessibility, clarity of user flows, and overall user satisfaction.

- Lead user research, interviews, and usability testing to identify user needs and pain points.
- Conducted 12+ usability tests identifying 15+ UX improvements.
- Created 6+ personas and user archetypes, journey maps, and design documentation to inform product direction.
- Translated ideas into wireframes, prototypes, and high-fidelity designs using Figma and FigJam.
- Ensured accessibility and usability best practices across all design work.
- Collaborated closely with product managers, engineers, and stakeholders to align solutions with business goals.
- Analyzed user behavior using analytics tools such as Amplitude and Hotjar to drive continuous improvements.
- Provided guidance and support to junior and entry-level designers.

UX/UI Designer - Franklin Templeton

Dec 2020 - May 2022 | Edinburgh, UK

- Designed cross-platform experiences for 100k+ active users.
- Delivered 12 major features in 18-month period.
- Created user personas, user journeys and sitemaps.
- Translated concepts into wireframes, prototypes and user flows using Sketch, Figma and the Adobe product suite.
- Worked on cross-platform applications to develop user experiences covering mobile phones, tablets and computers.
- Worked collaboratively with other designers, product design and development teams, business analysts, engineers and project managers to identify areas for improvement.

Product Lead - LendingCrowd

Dec 2018 - Nov 2020 | Edinburgh, UK

- Led design and product initiatives, translating business requirements into intuitive digital experiences.
- Streamlined loan application flow, reducing user drop-off by 72% and completion time by 66%
- Developed mockups and prototypes to visualize new features and interfaces.
- Collaborated in Agile sprints with developers, project managers, and QA teams.

UX/UI Designe - NN4M

Sep 2017 - Dec 2018 | Edinburgh, UK

- Conducted usability testing, developed user personas, user stories, and scenario maps, and created wireframes and interactive prototypes for iOS and Android smartphones and tablets. Performed metrics analysis to evaluate user experience and design effectiveness.

Junior Web Developer - Trendzer

Oct 2016 - Sep 2017 | Edinburgh, UK

- Wrote code in several programming and scripting languages, such as HTML, CSS and or JavaScript.
- Created responsive website layout/user interface by using standard HTML/CSS and bootstrap practices.
