Software and Coding Languages

Figma, Sketch, Axure, Adobe suite, Blender, Autocad, Rhyno, HTML(5), CSS(3), SASS, Bootstrap, jQuery, JavaScript, MS Office.

Design Skills

- User Research and Discovery
- Information Architecture
- Interaction Design
- Usability Testing
- Design Systems and Components
- Cross-Functional Communication
- Mentorship and Leadership
- Workshop Facilitation

Key Skills

- Creativity and imagination
- Understanding of current trends and styles
- Work under pressure and meet deadlines
- Critical thinking

Personal Interest

I love sports such as kite surfing, rock climbing and capoeira. I studied flute and I played the bass in a band. My main hobbies are exploring the beautiful Scottish countryside, reading books and playing boardgames with my friends. I am also keeping up to date with new technologies.

Employment History

Product Designer - Wood Mackenzie

May 2022 - Present | Edinburgh, UK

Through a research-driven design approach and close cross-functional collaboration, I delivered user-centred solutions that measurably improved product performance. Design improvements informed by usability testing, analytics, and iterative prototyping contributed to a **17% increase** in user retention, while also improving accessibility, clarity of user flows, and overall user satisfaction.

- Lead user research, interviews, and usability testing to identify user needs and pain points.
- Create personas, journey maps, and design documentation to inform product direction.
- Translate ideas into wireframes, prototypes, and high-fidelity designs using Figma and FigJam.
- Ensure accessibility and usability best practices across all design work.
- Collaborate closely with product managers, engineers, and stakeholders to align solutions with business goals.
- Analyze user behavior using analytics tools such as Amplitude and Hotjar to drive continuous improvements.
- Provide guidance and support to junior and entry-level designers.

UX/UI Designer - Franklin Templeton

Dec 2020 - May 2022 | Edinburgh, UK

- Create user personas, user journeys and site maps.
- Translate concepts into wireframes, prototypes and user flows using Sketch, Figma and the Adobe product suite.
- Work on cross-platform applications to develop user experiences covering mobile phones, tablets and computers.
- Work collaboratively with other designers, product design and development teams, business analysts, engineers and project managers to identify areas for improvement.

Product Lead - LendingCrowd

Dec 2018 - Nov 2020 | Edinburgh, UK

- Led design and product initiatives, translating business requirements into intuitive digital experiences.
- Developed mockups and prototypes to visualize new features and interfaces.
- Collaborated in Agile sprints with developers, project managers, and QA teams.
- Presented design concepts to stakeholders and guided implementation to meet strategic goals.

UX/UI Designer - NN4M

Sep 2017 - Dec 2018 | Edinburgh, UK

- Conducted usability testing, developed user personas, user stories, and scenario maps, and created wireframes and interactive prototypes for iOS and Android smartphones and tablets. Performed metrics analysis to evaluate user experience and design effectiveness.

Junior Web Developer - Trendzer

Oct 2016 - Sep 2017 | Edinburgh, UK

- Write code in several programming and scripting languages, such as HTML, CSS and or JavaScript.
- Create responsive website layout/user interface by using standard HTML/CSS and bootstrap practices.
